

### A note about the National Race Walk Rankings

This 2019 list marks the 29th year since the rankings were first produced. They have appeared annually since 1991, with the exception of 1999. The AC statisticians in the 1980s realized that they were not documenting race walking with the same care they brought to the other events. Since many race walks are held away from "mainstream" competitions, our results were often missed or inadequately reported.

The leading statisticians of that era, like Jurgen Wittenburg, Tom MacWilliam and the great Cecil Smith, strove to clearly and eloquently "tell the story of the sport in numbers". They reflected, and at times led, the standards of the Association of Track and Field Statisticians (ATFS), which started in 1950 and which continues to provide the IAAF (now World Athletics) with its own "story in numbers" to this day.

They therefore asked for help from race walk specialists. The collaboration resulted in Canadian statistics of uncommonly high quality, published in Athletics Magazine and AC's own "stats annual" for a number of years. This is the reason for our present "reporting standards". The other events were published in lists that recorded the 25 best athletes. The reporting standards for race walking enabled us to reflect, or estimate, an equivalent level. Those standards have remained relatively consistent since.

Though the advent of "computerized everything" should make compilation easier (and, properly used, it does), there is no substitute for knowledgeable research and well-tested standards of quality. Without that care, the product can easily fail to faithfully record athletic performance. This may just be inaccurate observation and reporting. But more seriously, it can be because generic programs – or those who operate them - often prioritize technical convenience or flamboyance over the elegant simplicity of the sport's rules and practices. Proper results relive the performances as the athletes first lived them. Recording their collective experiences is our privilege, our small contribution to our sport's history. Let us not just push buttons and assume our work is done; let us do the work before we push the buttons! In so doing, we continue the teaching, the heritage, of the Smiths, the MacWilliams, the Wittenburgs and their like, that these rankings attempt to honour.

Roger Burrows, Bytown Walkers Club de marche, Ottawa, January 2020

#### Legend

- (r) - road race
- (t) - outdoor track race
- (i) - indoor track race
- @ - intermediate time provided in the official results, en route to a longer distance (completed)
- # - intermediate time provided in the official results, en route to a longer distance (not completed)
- & - noteworthy performance between points that do not include the start, if the performance can be exactly calculated from information provided in the official results  
*(Times marked # and & are normally listed in "other noteworthy performances" after the main list)*
- (A) - elevation higher than 1000m (the IAAF designation for an "altitude" venue)
- m - result in mixed race. The first number indicates placing within gender, the second number indicates overall placing. One number only indicates that no athletes of the other gender were ahead. (ie 1/4m = gender winner, fourth overall; 1m = overall winner)
- \*, \*\*, +, ++, ! - special circumstances explained in notes below each list
- ?, ?? - information insufficient, or to be confirmed. May be placed in "other noteworthy performances" until clarified
- sec - found in an authoritative, but secondary, source. Confirmation (with official results) welcome

### Other noteworthy performances

#### Quebec Junior Championships/Canadian Masters Championships, Ste-Thérèse, July 07

Results of this competition were followed by independent, credible and verifiable reports that some athletes completed only 4,600m because of an officiating error. Further checking, including with the meet organizers and hosts, failed to establish which athletes were in that situation. All results have therefore been listed as “other noteworthy performances. Any clarifying documentation is welcome.

\* Resident foreign athlete (SAF)

+ The race started at 2330 local time on September 28 and finished in the early morning of September 29

++ Overall places in a race with several age groups combined: Dmitry also first in M45-49; JP second in M50-54

### **Other noteworthy performances**

#### **Quebec Junior Championships/Canadian Masters Championships, Ste-Thérèse, July 07**

Results of this competition were followed by independent, credible and verifiable reports that some athletes completed only 4,600m because of an officiating error. Further checking, including with the meet organizers and hosts, failed to establish which athletes were in that situation. All results have therefore been listed as "other noteworthy performances."

Any clarifying documentation is welcome.
